<http://epmcd.ath.cx>

## 15<sup>th</sup> **EP**Meeting

**EPM Editorial Board** - now made by both Secondary Schools and Universities - is going to meet next month of July 21<sup>st</sup> to 28<sup>th</sup> 2011 for our **15<sup>th</sup> EPMeeting** in Kastamonu, Turkey. Either if you are interested to **EPM Editorial Products** and join us as active member or you, simply, wish to know more about our educational-scientific project, you are gladly welcome to contact us even attending our conference. We will try anyway to give you live info throughout our official web site [www.epmagazine.org](http://www.epmagazine.org).

## **SEND ARTICLES to be published**

If you want to publish any articles in our magazine you can contact us towards our email contacts. We remind you that the contributions have to be original and must not have been published or being currently under consideration for publication elsewhere. Papers must be the result of either personal research or group practice in the covered topics, always about HISTORY of SCIENCE and TECHNOLOGY and TECHNOLOGY for GREEN ENERGY. NEWS & FUN PAGES contributions are welcome, too.

## **What is *EPMagazine***

We'd like to remind you that ***EPMagazine*** (a scientific-educational periodical) has been available on some web sites for the past nine years so far and its main purpose is to improve the scientific - technological and linguistic skills of growing people by improving their abilities in reading, understanding, talking and writing about Science & Technology.

There are seven available sections: **14-16** years old, **17-19** years old, **19-24** (Universities), **General**, **Technology for Green Energy**, **News** and **FunPages**.

The sections 14-16, 17-19, Technology for Green Energy and 19-24 contain articles written by students attending secondary schools or universities. The General section is reserved to teachers and adult people writers. News section contains news about scientific topics. Funpages section contains games about science, technology, green energy.
