

*Presentation of the booklet*  
***“How to write an article”***

By Timothy Dakin

HISTORY OF SCIENCE AND TECHNOLOGY  
TECHNOLOGY FOR GREEN ENERGY  
**EPM**  
EUROPEAN PUPILS MAGAZINE

*A quick explanation:  
the goals*

A guideline for everyone.

Made with you in mind.

Write better articles faster.

Challenge accepted

***“Wouldn’t** it be great if my article was  
perfect on the first check?”*

If not on the first check, maybe on the second.  
But no more wasting time!

*How do we make a great article  
without wasting time?*

Know what to do even before thinking about writing.  
**It's** that simple!

# *So what are we putting in this booklet?*

Anything you need to know, do and avoid doing

- Forms

- 
- Write simply
  - Use reliable sources

- Copy

*Is this going to be enough?*

Teaching **isn't** easy, neither is learning.

Labs done during the meetings and, in my opinion, this new booklet will help everyone understand better.

*Deadline: next EPMeeting!*

We want this out as soon as possible.

It will be ready by next time we meet or before.

It is going to be presented in the first EPMeeting of 2013

No, the world  
won't end on  
December 21<sup>st</sup>  
2012

It's really coming  
out next year!

## *To recap...*

A new guideline that is:

- Easy to understand
- Useful to everyone

Which is going to:

- Help you write better
- Save you time

# One last message

Be proud of your work, keep on doing your best and always give 110% rather than just stopping at 100. That's the only way to improve!
