

Experimental School of University of Macedonia

Greek EPM team

Kontou Koralia

Distribution of the work

- Most of the students are collecting information from the internet and books for a certain subject in order to write an article.
- The most experienced students (the older ones) are working with Publisher.

- The new members are usually preparing fun pages.
- Another one is occupied with our blog, editing and updating it.
- Two students are preparing the cover, whilst others work in a layout proposal for the next year's issues.
- Our team also prepares the magazine's calendar, every year.

ΠΕΙΡΑΜΑΤΙΚΟ ΓΥΜΝΑΣΙΟ ΠΑΝΕΠΙΣΤΗΜΙΟΥ ΜΑΚΕΔΟΝΙΑΣ

The usage of *dropbox*

- We opened an account on it and shared a file named «**EPM**»
- This program allows us to save time as our members can have access to our work from their home computers.
- Another file titled «**EPM International**» is shared with other partners ,for the time with Italian students.
(<https://www.dropbox.com/home/EPM>)

Simultaneous activities

- Our participation in Acstac: an annual conference organized by Anatolia College which is occupied with technology and science
- Our presentation in 2011 was about the EPM magazine.

Acstac conference

Frequent teleconferences

16 11 2011

Our team

- **Successive cooperation, team work and organization**
- **Trust and strong bonds have been developed among the EPM's members.**
- **Determined to continue the EPM magazine and transfer our ideas to the next generation.**

Difficulties

- The members are **extremely busy** with homework, especially the old ones, who are in charge of the most difficult tasks in the team.
- Every year we have to **train new members**. This requires a lot of time.
- **More «relaxed» atmosphere** than our teachers would prefer but much more attractive simultaneously.

Impact

- A lot of pressure and anxiety
- Quick and not qualitative results
- The target of 3 issues a year seems **unattainable**.

Changes recommended

- The content and vocabulary of the issues should be **more approachable** and **comprehensible**.
- The university student's articles should not be so academic and advanced.
- 3 magazines need at least 3 schools. Otherwise we can diminish the number of magazines to 2 per year.

THANK YOU FOR YOUR TIME AND PATIENCE!
